CHARLES W. G. WARD

Death has taken away from a place in the community Charles Wellesley Gates Ward, one of the most kindly, friendly and generous of Las Vegas citizens. His place was earned and held by long years of earnest endeavor to do all that might be expected from a citizen in private life and in public service.

He had accepted, without seeking, places in public service as government official, leader in citizens' programs for general public welfare, responsibilities in his church, social circles and every other community effort for betterment and benefit and did all of his tasks well.

He might have been the possessor of considerable personal wealth had he seized upon opportunities with selfish intention but his temperament was never that of one who seeks gain at the expense or the disadvantage of others. His time, his energy and his talent was more often devoted to general public welfare than it was to pursuit of his own gains. As was always looked to during his long career in Las Vegas as one of those upon whom burdens could be placed that others avoided with a plea that private business would not permit the loss of time and effort.

In these days of eager and selfish pursuit of personal advantage there are few who can be looked to for the sort of service which was always available to the community by calling upon Charles Ward. We will miss him greatly.

FRANK C. BOPE

Monday a small group of Las Vegas persons gathered at the Catholic church and cemetery to offer from their deep sorrow a last tribute to one of the finest characters this community has ever known. They were honoring Frank C. Bope, one of the few true heroes who have made Las Vegas their life-long home.

Some forty years ago a young man came to live here and seek a modest livelihood in the employment of the Railway company. He was known as a quiet, unassuming man but popular among his fellow workmen and social companions. He might have gone far in railroad circles but for a terrific handicap incurred in a splendid exhibition of heroism. He did more than lay down his life to save that of a fellow workman in a disastrous train wreck. All of the rest of his life after four tortuous years in a hospital he wore a badge of his heroism in the form of ghastly scars that disfigured his face and body. But the burn-scars affected only the surface without destroying any of the fine spirit in a splendid character. He carried on until his death in a courageous independence that sought no aid nor invited special consideration. In his private life he was successful in banking service and later in his own operation of an insurance and bonding business in which there were many demonstrations of the true depth of his innate honesty and fairness.

Frank Bope was one of the most deeply loved persons who ever lived in the community. His heroism invited an admiration that he continued to command through other attributes of his fine character. As the years went by and the circle of his intimate friends was restricted by the toll of death he shrank from new contacts and during the last few months retired from active business to enjoy what limited pleasures appealed to him. His last illness found him ready to go to whatever reward awaits such men when life ceases. Not the least of compensation for a life lived well and bravely is the fine memory left with all those who were fortunate in having either acquaintance or the greater privilege of friendship with him.

ANTICIPATED

Yesterday the Twelfth State Legislature in special session added to the statutes of New Mexico a new and a great governmental responsibility by the enactment of an Unemployment Insurance law. Henceforth the state government will be engaged in one of the widest departures in social security ever undertaken. There may be an attack upon the law to determine its constitutionality and there may be judicial ruling that it does not conform to basic legal statutes. Nevertheless the principle of the law in some phase will continue because it has become desired by citizens as a partial guarantee of security against economic depression.

The charge will be made in some quarters that the legislature acted precipitately at the request of the Governor but a fair appraisal of the circumstances should support the argument that quick action without wide legislative inquiry was warranted. The circumstances were that New Mexico employers, preparing to pay a one percent tax upon 1936 payrolls would have been required to remit to the federal government something over \$400,000 of which ninety percent might be retained for possible benefit within the state if our laws could be made to conform to the federal requirements. The Governor called the legislature to consider a very carefully prepared bill which had the full approval of Washington administrators of the Social Security Act by whom Unemployment Insurance is supervised. The cost of the session was less than one-tenth of one percent of the sum available for New Mexico benefit. Whatever happens to the statute in a test of constitutionality, the fact remains that some \$350,000 or more of New Mexico money will not be tied up in the national treasury and subject only to the control of Congress and the federal government. If invalid under our law the new tax will be available for refund, in part at least, to those from whom collected.

Amendments to the act are necessary and obvious. The changes needed, such as widening the scope of unemployment coverage, limitation of administration expense and provisions for direct refund of collections if required, can be taken up in the regular session of the Thirteenth Legislature which meets within a month.

If New Mexico would move as quickly and as effectively in all opportunities for a saving of values and benefits as in the instance of the Unemployment Insurance Act there would be much less need for worry about many of the problems arising in relations between the state and the federal government.

ALONG THE BANKS OF THE GALLINAS

WALTER VIVIAN

There is going to be a little friendly rivalry between West and East Las Vegas in the matter of Christmas lighting and decorating. Merchants and residents on the west side of the Gallinas are really going into the lighting-decorating business in a big way. Stores are being decorated and lighted and the community tree on the east side of the plaza is a credit. (Fidel Ortega of Trout Springs donated said helped erect the West Vegas tree.)

Just a little more cooperation, and Vegas will have the best Christmas regalia in recent years. Come on, folks, get going with these decorations.

Mrs. Edward C. Israel, 761 Boulevard, is the latest entry in the Optic-Chamber of Commerce lighting and decorating contest. Mrs. Israel was a prize winner last year.

That wasn't the wind blowing through a pine forest today, just the sighs of faller emitted by the scores of persons who had the possibility of terms in the pen hanging over their heads. Three-fourths of a hundred cases dismissed.

HOW'S YOUR HEALTH

Edited by Dr. Isaac Goldstein, Academy of Medicine

KILLING WITH KINDNESS
The severe and sometimes fatal consequences following the unskillful handling of an injured person may properly be termed instances of killing with kindness. Human sympathy prompts us to come to the immediate aid of the injured person. But one must have one's wits about him and know the essentials of proper first aid; otherwise it is best to keep hands off.

Good first aid to the injured is one of the greatest public health needs. One out of every 14 persons in the United States suffers some serious but during the year. The national safety council reports that 100,000 American lives were lost through accident in 1935. In addition, \$240,000 sustained non-fatal injuries. The daily economic loss resulting from accidents is estimated at \$50,000,000.

A physician cannot be close to every accident. The initial care of the injured must therefore in most instances be administered by lay persons. The quality of this care will frequently be the deciding factor between life or death, between permanent or temporary disability, between prolonged hospital care and loss of time, or no disability.

Adequate first aid treatment can be learned by close application of study. The American Red Cross has many training centers at which individuals interested can receive instruction. A manual on first aid can be secured from the Red Cross. Those who have no formal training in first aid can still prove of use provided they bear the following points in mind. When a person is injured, abstain from handling him in any way that may further complicate or complicate his injury. If supposing a bone fracture, do not move the individual. Make him as comfortable as possible by covering him and allow him to remain where he is until expert help arrives. If he must be moved, ascertain first if he has been paralyzed and if so, do not move him. If he has a fracture of the neck, do not move him. If he has a fracture of the arm, do not move him. If he has a fracture of the leg, do not move him. If he has a fracture of the hip, do not move him. If he has a fracture of the spine, do not move him. If he has a fracture of the skull, do not move him. If he has a fracture of the jaw, do not move him. If he has a fracture of the ribs, do not move him. If he has a fracture of the pelvis, do not move him. If he has a fracture of the shoulder, do not move him. If he has a fracture of the elbow, do not move him. If he has a fracture of the wrist, do not move him. If he has a fracture of the hand, do not move him. If he has a fracture of the foot, do not move him. If he has a fracture of the ankle, do not move him. If he has a fracture of the knee, do not move him. If he has a fracture of the hip, do not move him. If he has a fracture of the spine, do not move him. If he has a fracture of the skull, do not move him. If he has a fracture of the jaw, do not move him. If he has a fracture of the ribs, do not move him. If he has a fracture of the pelvis, do not move him. If he has a fracture of the shoulder, do not move him. If he has a fracture of the elbow, do not move him. If he has a fracture of the wrist, do not move him. If he has a fracture of the hand, do not move him. If he has a fracture of the foot, do not move him. If he has a fracture of the ankle, do not move him. If he has a fracture of the knee, do not move him. If he has a fracture of the hip, do not move him. If he has a fracture of the spine, do not move him. If he has a fracture of the skull, do not move him. If he has a fracture of the jaw, do not move him. If he has a fracture of the ribs, do not move him. If he has a fracture of the pelvis, do not move him. If he has a fracture of the shoulder, do not move him. If he has a fracture of the elbow, do not move him. If he has a fracture of the wrist, do not move him. If he has a fracture of the hand, do not move him. If he has a fracture of the foot, do not move him. If he has a fracture of the ankle, do not move him. If he has a fracture of the knee, do not move him. If he has a fracture of the hip, do not move him. If he has a fracture of the spine, do not move him. If he has a fracture of the skull, do not move him. If he has a fracture of the jaw, do not move him. If he has a fracture of the ribs, do not move him. If he has a fracture of the pelvis, do not move him. If he has a fracture of the shoulder, do not move him. If he has a fracture of the elbow, do not move him. If he has a fracture of the wrist, do not move him. If he has a fracture of the hand, do not move him. If he has a fracture of the foot, do not move him. If he has a fracture of the ankle, do not move him. If he has a fracture of the knee, do not move him. If he has a fracture of the hip, do not move him. If he has a fracture of the spine, do not move him. If he has a fracture of the skull, do not move him. If he has a fracture of the jaw, do not move him. If he has a fracture of the ribs, do not move him. If he has a fracture of the pelvis, do not move him. If he has a fracture of the shoulder, do not move him. If he has a fracture of the elbow, do not move him. If he has a fracture of the wrist, do not move him. If he has a fracture of the hand, do not move him. If he has a fracture of the foot, do not move him. If he has a fracture of the ankle, do not move him. If he has a fracture of the knee, do not move him. If he has a fracture of the hip, do not move him. If he has a fracture of the spine, do not move him. If he has a fracture of the skull, do not move him. If he has a fracture of the jaw, do not move him. If he has a fracture of the ribs, do not move him. If he has a fracture of the pelvis, do not move him. If he has a fracture of the shoulder, do not move him. If he has a fracture of the elbow, do not move him. If he has a fracture of the wrist, do not move him. If he has a fracture of the hand, do not move him. If he has a fracture of the foot, do not move him. If he has a fracture of the ankle, do not move him. If he has a fracture of the knee, do not move him. If he has a fracture of the hip, do not move him. If he has a fracture of the spine, do not move him. If he has a fracture of the skull, do not move him. If he has a fracture of the jaw, do not move him. If he has a fracture of the ribs, do not move him. If he has a fracture of the pelvis, do not move him. If he has a fracture of the shoulder, do not move him. If he has a fracture of the elbow, do not move him. If he has a fracture of the wrist, do not move him. If he has a fracture of the hand, do not move him. If he has a fracture of the foot, do not move him. If he has a fracture of the ankle, do not move him. If he has a fracture of the knee, do not move him. If he has a fracture of the hip, do not move him. If he has a fracture of the spine, do not move him. If he has a fracture of the skull, do not move him. If he has a fracture of the jaw, do not move him. If he has a fracture of the ribs, do not move him. If he has a fracture of the pelvis, do not move him. If he has a fracture of the shoulder, do not move him. If he has a fracture of the elbow, do not move him. If he has a fracture of the wrist, do not move him. If he has a fracture of the hand, do not move him. If he has a fracture of the foot, do not move him. If he has a fracture of the ankle, do not move him. If he has a fracture of the knee, do not move him. If he has a fracture of the hip, do not move him. If he has a fracture of the spine, do not move him. If he has a fracture of the skull, do not move him. If he has a fracture of the jaw, do not move him. If he has a fracture of the ribs, do not move him. If he has a fracture of the pelvis, do not move him. If he has a fracture of the shoulder, do not move him. If he has a fracture of the elbow, do not move him. If he has a fracture of the wrist, do not move him. If he has a fracture of the hand, do not move him. If he has a fracture of the foot, do not move him. If he has a fracture of the ankle, do not move him.
